

Yes on Sunnyvale Public Lands for Public Use Act

Rumors and Misconceptions Part #1

August 25, 2015

The opposition has been spreading rumors and misinformation about this measure.

FEAR
UNCERTAINTY
DOUBT

The opposition has been spreading rumors and misinformation about this measure

This is known as:

F.U.D.

F.U.D. #1

They claim, “The purpose of this measure is to STOP the renovation or development of the Civic Center...”

This is FALSE!

The Truth

- There are many options available to rehabilitate and fund the Civic Center, with or without public land transactions.

The Truth

- This measure will require the City Council to present a plan that is appealing to the RESIDENTS (not just the developers), including any public land transactions that may be proposed.

The Truth

- Without this measure, what's to prevent the City Council from approving a deal that favors the DEVELOPERS at the expense of the RESIDENTS?

The Truth

All we want is a mechanism to ensure whatever plan the Council approves does not ignore the needs of the residents regarding the sale, lease, swap or transfer of our City Parks or Community Service Amenities.
